LIGHT & DARK TEXTILES

## WHY FOREVER DTF?

Developed & produced in Germany. With the FOREVER DTF Transfer Films, you will be printing no-cut designs that have the finest details & the brightest colors. Peeling instantly or hot with either a Matt or a Glitter finish. Low press temperatures of 120-150°C/248-302°F keep productions flowing. A protective coating in the film helps fuse the inks to the garment.

**MASS PRODUCTION** DTF mass production with 1-second transfers & instant peel. Cut costs & boost efficiency.

**QUICK DRYING** Quick-drying times with Kodak, Mimaki, DuPont, Epson, STS & more DTF inks vibrant results, no waiting.

**LESS DYE MIGRATION** 

Our DTF formula minimalizes dye migration, preserves colors better, eliminates the need for different glues enhancing cost-effectiveness.

#### DTF PREMIUM MATT

This transfer film is really flexible and can work quickly - in 1 to 15 seconds. It makes colors look great, dries fast, and is peeled instantly. It's great with different kinds of DTF inks like Kodak, DuPont, Mimaki, Epson, STS, and others. Using this film will impress your customers and help you do better than your competitors.

#### **CHARACTERISTICS**

- Instant Peel (Unique)
- Matt Finish
- Soft Touch
- Protective Coating for Higher Washability

### **DTF GLITTER**

Attract your customers with shiny and colorful glitter designs. A special shiny finish makes your brand unique and more attractive. Choose to be efficient, colorful, and improve your business. Works well with DTF inks from brands like Kodak, DuPont, Mimaki, Epson, STS, and others.

#### **CHARACTERISTICS**

- Soft Touch
- Glitter Finish
- Hot Peel
- Complex Designs
